### HCPCS Codes Disclaimer

The reimbursement information provided herein is intended to provide general information concerning coding of Hollister products only. Hollister does not guarantee coverage or payment for any products. The ultimate responsibility for proper coding, satisfying reimbursement requirements, and obtaining reimbursement remains with the provider. Coding and coverage policies and guidelines are complex, can vary from one carrier or region to another, and are updated frequently. Providers should check with their local carriers or intermediaries often and should consult with counsel, a reimbursement specialist, and/or the DMECS website for any coding, coverage, reimbursement, or billing questions.

***HCPCS codes shown in this Product Catalog are current as of 1-9-14.***

## Medicare's Usual Maximum Quantity for Urological Supplies

The quantity of urological supplies needed by a patient is determined by many factors. There will be variation according to individual need and their needs may vary over time. The table below lists the maximum number of items/units of service that are medically necessary. The actual quantity needed for a particular patient may be more or less than the amount listed. The medical necessity for use of a greater quantity of supplies than the amounts listed must be clearly documented in the patient's medical record, and must be available upon request.

**Per LCD for Urological Supplies (L5080), NHIC effective 12-15-13.**

HCPCS	Long Description	Quantity
A4217	Sterile water/saline, 500 mL	*
A4310	Insert tray without drainage bag and without catheter (accessories only)	1 tray/insertion
A4311	Insertion tray without drainage bag with indwelling catheter, foley type, two-way latex with coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.)	1 tray/insertion
A4312	Insertion tray without drainage bag with indwelling catheter, foley type, two-way all silicone	1 tray/insertion
A4313	Insertion tray without drainage bag with indwelling catheter, foley type, three-way, for continuous irrigation	1 tray/insertion
A4314	Insertion tray with drainage bag with indwelling catheter, foley type, two-way latex with coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.)	1 ea/mo
A4315	Insertion tray with drainage bag with indwelling catheter, foley type, two-way, all silicone	1 ea/mo
A4316	Insertion tray with drainage bag with indwelling catheter, foley type, three-way, for continuous irrigation	1 ea/mo
A4320	Irrigation tray with bulb or piston syringe, any purpose	*
A4321	Therapeutic agent for urinary catheter irrigation	*
A4322	Irrigation syringe, bulb, or piston, each	*
A4326	Male external catheter with integral collection chamber, any type, each	*
A4327	Female external urinary collection device; meatal cup, each	1 ea/wk
A4328	Female external urinary collection device; pouch, each	1 ea/day
A4331	Extension drainage tubing, any type, any length, with connector/adaptor, for use with urinary leg bag or urostomy pouch, each	*
A4332	Lubricant, individual sterile packet, each	200 ea/mo
A4333	Urinary catheter anchor device, adhesive skin attachment, each	3 ea/wk
A4334	Urinary catheter anchoring device, leg strap, each	1 ea/mo
A4335	Incontinence supply; miscellaneous	*
A4336	Incontinence supply, urethral insert, any type, each	*
A4338	Indwelling catheter; foley type, two-way latex with coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each	1 ea/mo
A4340	Indwelling catheter; specialty type, (e.g., coudé, mushroom, wing, etc.), each	1 ea/mo
A4344	Indwelling catheter, foley type, two-way, all silicone, each	1 ea/mo
A4346	Indwelling catheter; foley type, three-way for continuous irrigation, each	1 ea/mo
A4349	Male external catheter, with or without adhesive, disposable, each	35 ea/mo

\*No established usual maximum, refer to Medicare Utilization Guidelines.

HCPCS	Long Description	Quantity
A4351	Intermittent urinary catheter; straight tip, with or without coating (Teflon, silicone, silicone elastomer, or hydrophilic, etc.), each	200 ea/mo
A4352	Intermittent urinary catheter; coudé (curved) tip, with or without coating (Teflon, silicone, silicone elastomeric, or hydrophilic, etc.), each	200 ea/mo
A4353	Intermittent urinary catheter, with insertion supplies	200 ea/mo
A4354	Insertion tray with drainage bag but without catheter	1 ea/mo
A4355	Irrigation tubing set for continuous bladder irrigation through a three-way indwelling foley catheter, each	1 ea/day
A4356	External urethral clamp or compression device (not to be used for catheter clamp), each	1 ea/3 mo
A4357	Bedside drainage bag, day or night, with or without anti-reflux device, with or without tube, each	2 ea/mo
A4358	Urinary drainage bag, leg or abdomen, vinyl, with or without tube, with straps, each	2 ea/mo
A4360	Disposable external urethral clamp or compression device, with pad and/or pouch, each	NC
A4402	Lubricant, per ounce	*
A4450	Tape, non-waterproof, per 18 square inches	10 units (18 sq in)/mo
A4452	Tape, waterproof, per 18 square inches	10 units (18 sq in)/mo
A4455	Adhesive remover or solvent (for tape, cement, or other adhesive), per ounce	*
A4520	Incontinence garment, any type (e.g., brief, diaper), each	*
A4456	Adhesive remover, wipes, any type, each	NC
A4554	Disposable underpads, all sizes	*
A5102	Bedside drainage bottle with or without tubing, rigid or expandable, each	1 ea/3 mo
A5105	Urinary suspensory with leg bag, with or without tube, each	*
A5112	Urinary drainage bag, leg or abdomen, latex, with or without tube, with straps, each	1 ea/mo
A5113	Leg strap; latex, replacement only, per set	*
A5114	Leg strap, foam or fabric, replacement only, per set	*
A5131	Appliance cleaner, incontinence and ostomy appliances, per 16 ounce	1 (16 oz)/mo
A5200	Percutaneous catheter/tube anchoring device, adhesive skin attachment	*
A9270	Non-covered item or service	

\* No established usual maximum, refer to Medicare Utilization Guidelines.

Note: Intermittent catheterization using a sterile intermittent catheter kit (A4353) is covered when the patient requires catheterization and the patient meets one of the following criteria (1-5):

- 1) The patient resides in a nursing facility
- 2) The patient is immunosuppressed, for example (not all-inclusive): on a regimen of immunosuppressive drugs post-transplant, on cancer chemotherapy, has AIDS, has a drug-induced state such as chronic oral corticosteroid use
- 3) The patient has radiologically documented vesico-urethral reflux while on a program of intermittent catheterization
- 4) The patient is a spinal-cord-injured-female with neurogenic bladder who is pregnant (for duration of pregnancy only)
- 5) The patient has had distinct, recurrent urinary tract infections, while on a program of sterile intermittent catheterization with A4351/A4352 and sterile lubricant A4332, twice within the 12 months prior to the initiation of sterile intermittent catheter kits.

# VaPro

Touch Free Hydrophilic Intermittent Catheter

*Simple. Clean. Independence.*

The **VaPro** hydrophilic intermittent catheter helps provide users with a sense of assurance, ease, and well-being, thanks to its unique design and exceptional features. Finally, a hydrophilic catheter – with a tip and sleeve – that is easy to use and offers full protection.

Hollister

## VaPro Touch Free Hydrophilic Intermittent Catheter

### DID YOU KNOW...

#### Hollister Introduces Only Touch-Free Hydrophilic Catheter

The VaPro hydrophilic intermittent catheter provides users with a sense of assurance, ease, and well-being, thanks to its unique design and exceptional features.

- **Protective tip** helps bypass bacteria in distal urethra
- **Protective sleeve** promotes confident handling, making catheter easier to grip
- **Easy-to-open packaging** with large finger holes and tear strip
- **Pre-hydrated** and ready to use

# Small.

It's kind of a big deal.

## Advance Plus Pocket

Touch Free Intermittent Catheter System

Same product, same reimbursement, 60% smaller package

**Discreet. Convenient. Easy to Use.**

Compact packaging for convenient storage and carrying • A gel reservoir to help eliminate the need for additional lubrication • An integrated collection bag to help you catheterize anytime, anywhere • A protective tip to help the catheter bypass environmental bacteria

# That's a relief.

Same trusted Apogee brand quality,  
now comfortably priced.

## Now Available Apogee IC

the Essentials Line of Intermittent Catheters

At Hollister, we strive to help healthcare professionals like you deliver a more rewarding and dignified quality of life for your patients.

Based on your feedback, Hollister has expanded our line of Apogee™ intermittent catheters to address declining reimbursement rates. Apogee IC catheters combine the comfort expected from the Apogee brand with the quality of a Hollister product—at a new lower price point.
